## USE CASE OF TOKEN:

### SIDUS Coin Market Cap

### SENATE Coin Market Cap ~ Governance

SIDUS is the in-game token in which rewards are paid out and is the main currency used in the SIDUS marketplace and other in-game and out-of-game services, such as the upcoming launchpad SIDUS Starter. A mechanism exists for irreversibly burning the coin with in-game spending, which permanently reduces the token issue.

SENATE is the in-game mechanics as a governance coin as well as in-game currency for certain products within the game. The voting system implemented uses third party solutions and/or specifically designed contracts.

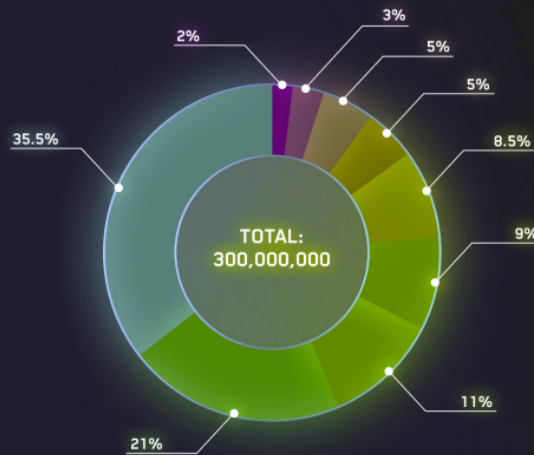

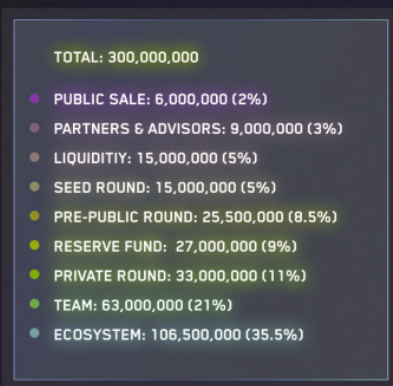

## TOKENOMICS:

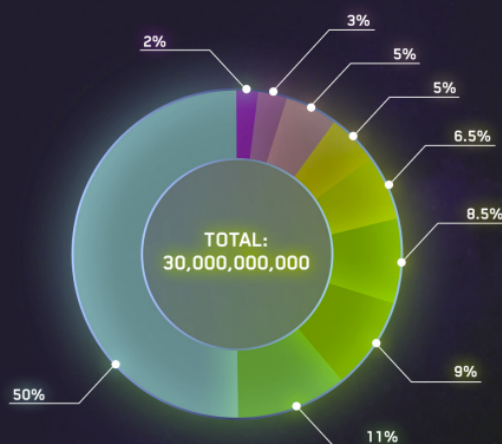

### [7] TOKEN SALE

To create all economic processes in the game and the voting system, two different currencies are used - SIDUS (the gaming token) and SENATE (the DAO or governance token).
