THE LEADING GAME-FI PLATFORM

## RESEARCH REPORT

DATE: 02/10/2023

GAME TITLE: DOMINATION

PREPARED BY: RESEARCH TEAM

The information contained in these documents is confidential, privileged, and only for the information of the intended recipient and may not be used, published, or redistributed without the prior written consent of ARCADE Inc. The opinions expressed are in good faith and while every care has been taken in preparing these documents, ARCADE Inc. and its employees make no representations and give no warranties of whatever nature in respect of these documents, including but not limited to the accuracy or completeness of any information, facts and/or opinions contained therein. ARCADE Inc., its subsidiaries, the executives, employees, and contractors cannot be held liable for the use of and reliance on the opinions, estimates, forecasts, and findings in these documents.

**NETWORK:** Binance Smart Chain (BSC)

**ABOUT:** Domination is a Web3 competitive 3rd person shooter set in a future world, where players fight against creatures and other players in a huge map full of amazing sceneries for up to 42 players. The game has been designed for fast and competitive 10-minute games.

**GAMEPLAY MECHANICS:** Domination's core mechanic makes it unique and different from any other game: Players have to find shelter inside the Domes that appear periodically all around the map to survive the deadly Pulse that impacts the entire map every few minutes.

Fewer Domes will appear each time, generating intense combat points until the last round where players will fight in a single final Dome. But beware, players won't be the only threat you will have to face in the Dome Games, as hostile creatures known as Rovers also inhabit the island.

After the cataclysm, survival on the planet was only possible thanks to the domes: force fields fed by a strange mineral found in the depths of the earth, the Domenite. But its scarcity faced those who tried to gain control of it, sparking countless armed clashes in an increasingly divided society.

To stop this escalation of violence, the big corporations inaugurated the Dome Games; regulated competitions in which only the strongest will fight to win the Domenite extraction contracts.

**GAME TYPE:** F2P Dome Based Competitive Shooter

**QUALITY:** AA

**TARGET AUDIENCE:** 3rd person shooter & MOBA fans

The information contained in these documents is confidential, privileged, and only for the information of the intended recipient and may not be used, published, or redistributed without the prior written consent of ARCADE Inc. **TEAM:** **Blackmouth Games** is an independent development studio focused on massively multiplayer blockchain games.

After an initial stage of learning and R&D, the studio has demonstrated its technical capacity, creating in 2019 one of the first Battle Royale systems in Europe, in addition to other complex developments based on the multiplayer technologies of SpatialOS (Improbable), AWS Game Tech (AWS) and Unreal Engine (Epic Games).

Domenation is the result of a committed entrepreneurial team in close collaboration with some of the largest technology providers in the gaming industry.

**TEAM VISION:** At Blackmouth Games we are convinced that Free to Play Web3 is the future of gaming. We work on the creation of Web3 games without entry barriers, to unify the conventional F2P and web3 players communities in a same game ecosystem.

We believe that this combination is the perfect symbiosis between the accessibility and usability of F2P games with the infinite possibilities offered by Web3, making players true participants in each project, as well as the owners of the content acquired.

**USE CASE OF TOKEN:** Domenation (\$DOME) is the official governance game token, the total token supply to be issued is 1.000.000.000 \$DOME.

Domenation's token and NFT utilities go further; both will be interoperable between the company's future game developments and partner platforms. Additionally, token owners will have exclusive priorities, and governance rights over the future of the game.

Players can obtain tokens mainly by playing regular and competition modes, completing challenges, trading personalizable assets and/or staking.

Main token uses: (\$DOME)

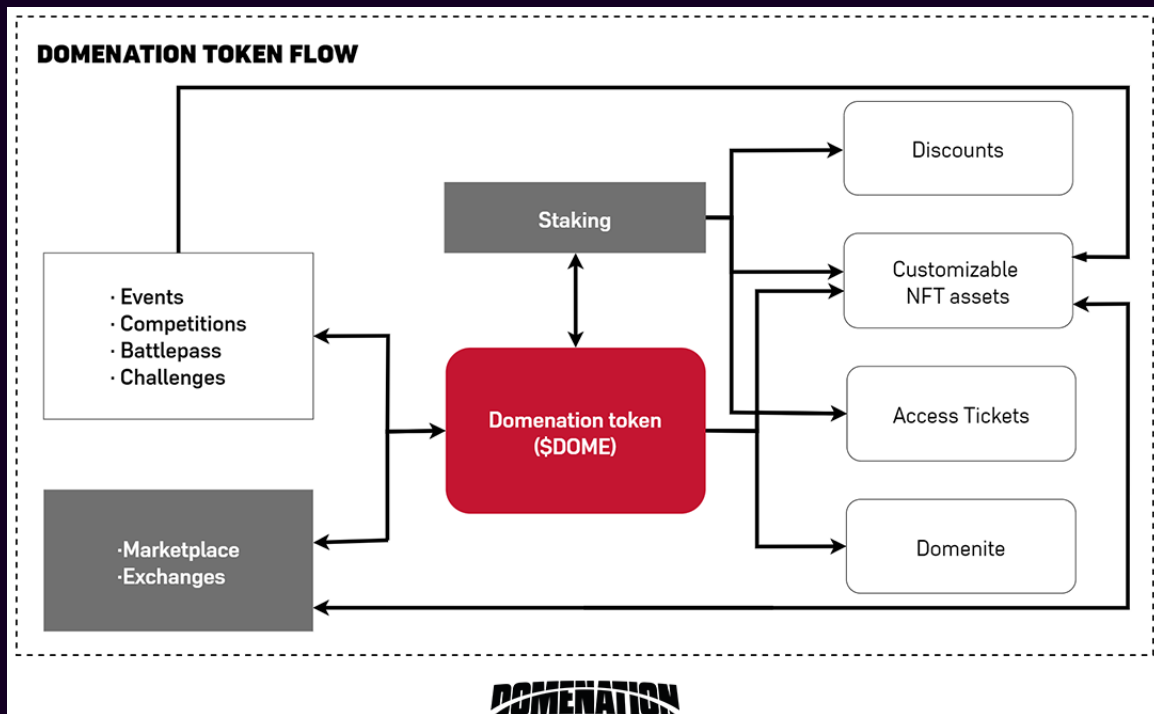

Cosmetic NFT and non NFT assets

Access tickets for exclusive tournaments and game modes

Smart Staking

Governance and eventual game priorities

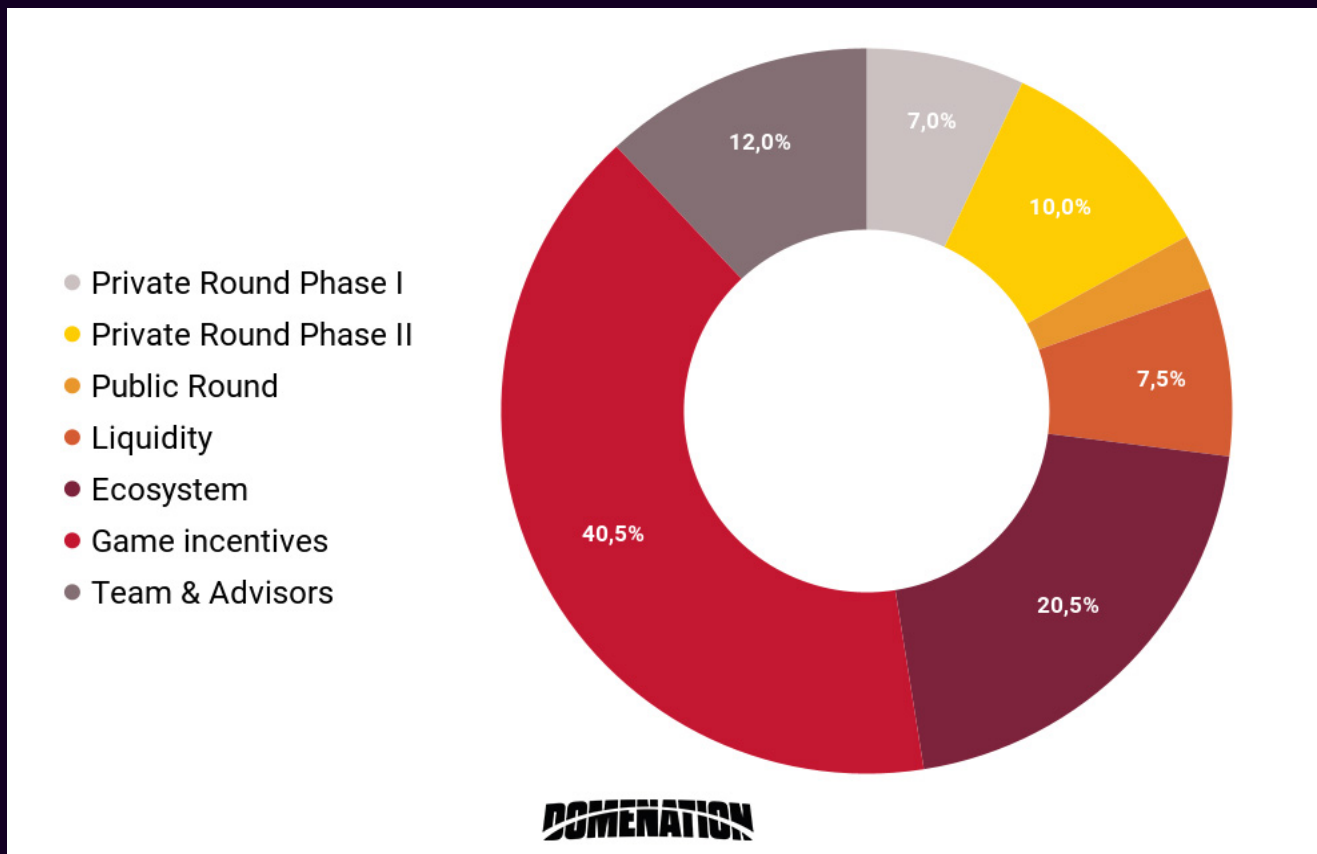

## TOKENOMICS:
