PLATFORM: Desktop, Mobile

GAMEPLAY MECHANICS:

In Badmad Robots your main mission is to survive and seize the city absorbed by the Badmad junky robots whose only interests are $METAL beer and violence.

Collect the robots, guns and other street garbage to increase your street credibility
Participate in PVP battles, join Badmad races to show who rules here
Create your own gang or join the one – more powerful mobs will rule the city
Own your small land and farm – even Badmad mad robots want to have their own hideout where they can earn some $METAL to keep themselves alive.

PVP Arena is the main game in Badmad Robots. It's a place where you can earn $METAL for fighting with other users.

PvP has seasons, each season lasts 30 days, each one has its own season pool, the total amount of $METAL, which is distributed to all players in the leaderboard. At the moment, the average ROI for one common robot is equal to 3517 $METAL per month.

REVIEW:

Badmad Robots is a play-to-earn game built on Binance Smart Chain, featuring PvP battles, racing, and scavenging mechanics. Players must survive and conquer a city overrun by Badmad robots with interests in beer, violence, and $METAL.

The game involves collecting robots, guns, and street garbage to increase street credibility, participating in PvP battles and races, creating or joining gangs to dominate the city, and owning land to farm $METAL.

The main game mode is PvP Arena, with seasons lasting 30 days and each season having its own $METAL pool distributed to leaderboard players. The game targets robot/dystopian fans, blockchain/P&E gamers, and utilizes NFTs for in-game asset identity and ownership.
